Developers, developers, developers! https://github.com/collboard/modules-sdk

4) And you can start to develop your first module!

```
# Linux, WSL
colldev

# Windows, PowerShell
npx colldev

# Or by NPM
npm start

# You can also run full command
# Note: "colldev" is just shortcut for "colldev develop"
colldev develop

# And disable to open browser
colldev develop --open none
```
